01

CARDIO ZONE

Five cardio stations, built for peak-hour traffic

Treadmills for walkers and runners, ellipticals for low-impact conditioning. Five stations keep warm-ups, fat-loss sessions and endurance work running without queues.

CARDIO · MOTORISED

Commercial Treadmills

Three full-size running stations, the heartbeat of a busy gym floor.

A matched row of commercial motorised treadmills with long running decks and console-led workouts. Members walk, jog, run or train intervals side by side, so the cardio zone keeps moving at peak hours.

TRAINS — Heart & lungs · quads · hamstrings · glutes · calves

- Three stations, so no waiting at peak times
- Console with LCD display and quick-select keys
- Front handlebars and full-length side rails
- Long running deck for walking, jogging and running

CARDIO · LOW-IMPACT

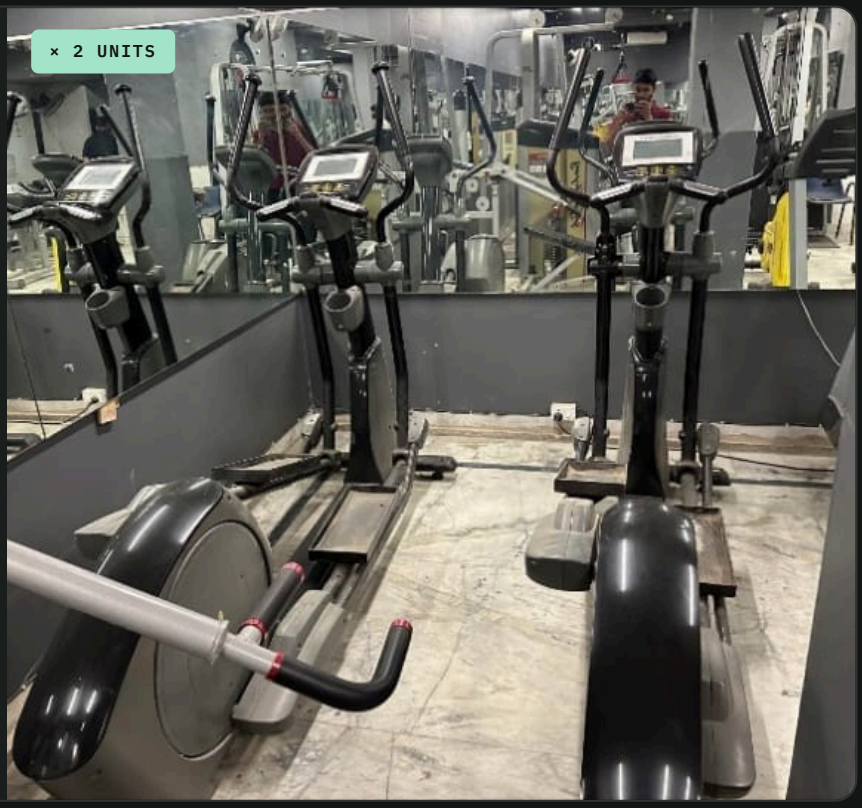

Elliptical Cross-Trainers

Total-body cardio that is easy on the joints.

A smooth elliptical stride with moving handlebars brings the arms, chest and back into every session. A favourite with members who want a serious calorie burn without the impact of running, and ideal for warm-ups and steady-state conditioning.

TRAINS — Glutes · quads · hamstrings · calves · chest · back · arms

- Moving handlebars for upper-body work
- Rear-drive design with a large flywheel housing
- Wide foot pedals and a console display
- Two units for comfortable member flow

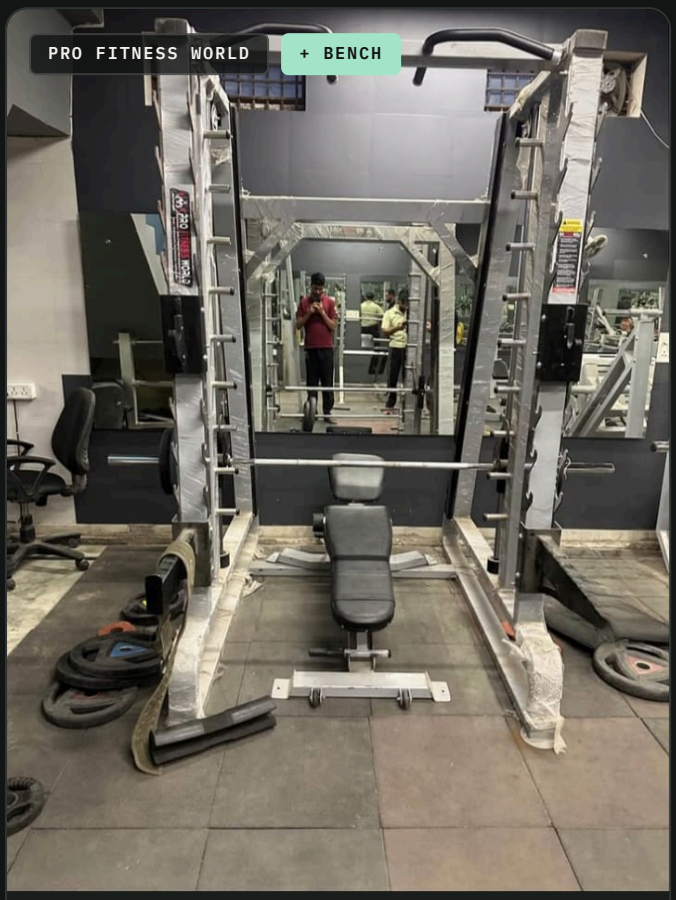

02

FREE WEIGHTS & PLATE-LOADED

Heavy compound strength, made confident

Two heavy-duty Pro Fitness World stations for squats, presses and plate-loaded strength work: the core of any serious lifting area.

STRENGTH · GUIDED BAR

Smith Machine with Adjustable Bench

PRO FITNESS WORLD

Heavy, confident lifting on a guided bar.

The bar runs on fixed vertical rails, with lock-out hooks up both uprights. Members can squat, press and lunge heavy and rack the bar at any height. Comes with an adjustable bench for flat, incline and seated pressing.

TRAINS	Legs & glutes · chest · shoulders · back · arms
MOVES	Squat · lunge · bench & incline press · shoulder press · shrug · calf raise · chin-up

- Lock-out hooks along both uprights
- Built-in weight-plate storage
- Multi-grip chin-up handles on the top frame

STRENGTH · PLATE-LOADED

Plate-Loaded Lever Station

PRO FITNESS WORLD

Built to take serious load.

A heavy-duty plate-loaded lever station on its own Pro Fitness World steel platform. A bolted upright with multiple adjustment holes and a long lever arm with grips give smooth, progressive resistance. Just add standard weight plates.

TRAINS	Heavy, progressive strength work on a guided lever path
LOAD	Standard weight plates on the lever arm

- Branded steel standing platform
- Multi-position bolted upright
- Wide A-frame base for stability

03

CABLE TRAINING

Every angle, every muscle group

A dual-stack crossover and a dedicated lat station add the pulling, fly and functional work that turns a weights area into a complete gym.

CABLE · FUNCTIONAL

Adjustable Cable Crossover

The most versatile station on the floor.

Two weight-stack towers joined by an overhead chin-up frame. Height-adjustable pulleys start every move at the right angle, and the flat bench adds seated and lying cable work.

- Two independent weight stacks: one member or two
- Height-adjustable pulleys
- Overhead chin-up bar · flat bench included

One station, a full menu

CHEST	Crossovers · high-to-low and low-to-high flyes
ARMS	Pushdowns · curls · overhead extensions
SHOULDERS	Lateral raises · face pulls · rear-delt flyes
CORE & LEGS	Woodchops · Pallof press · kickbacks

CABLE · BACK

Lat Pulldown

Build a wider, stronger back.

A dedicated high-pulley lat station with a padded knee hold-down that keeps members locked in for strict, heavy pulling. Switch between the long lat bar and the strap handle to work wide, close and neutral grips.

TRAINS	Lats · mid-back · rear delts · biceps · forearms
MOVES	Wide · close · neutral · reverse-grip pulldowns · straight-arm pulldown

- Weight-stack resistance
- Padded knee hold-down
- Lat bar and strap handle shown

04

SELECTORISED STRENGTH · UPPER BODY

Body-Solid Pro ClubLine Series II

Body-Solid's full-commercial selectorised line, with heavy 2″ × 3″ steel mainframes, fully shrouded weight stacks, thick DuraFirm pads and an exercise placard on every station.

SELECTORISED · CHEST & SHOULDERS

Pec Fly / Rear Delt

BODY-SOLID · PRO CLUBLINE SERIES II · S2PEC

Two machines in one footprint.

A dual-function station that switches between chest flyes and rear-delt flyes in seconds. Members face out to sculpt the chest, then turn around to build the rear shoulders and upper back.

PEC FLY	Chest · front delts
REAR DELT	Rear delts · rhomboids · mid-traps

- 5-position seat and 5-position arm adjustment
- Variable-resistance cam
- Step-in entry · fully shrouded stack

SELECTORISED · SHOULDERS

Shoulder Press

BODY-SOLID · PRO CLUBLINE SERIES II · S2SP

Strong, stable overhead pressing.

A centre-drive design keeps both press arms moving evenly, so members press heavy overhead with balance and control. Multi-position grips let every member choose the pressing angle that suits their shoulders.

TRAINS	Front & side delts · triceps · upper chest · upper traps

- Centre-drive press arms for even, stable movement
- Multi-position hand grips
- 6-position seat · step-in entry · shrouded stack

05

SELECTORISED STRENGTH · LOWER BODY

A matched pair for complete legs

Quads and hamstrings on two Body-Solid Series II machines, with the same frame, pads and adjustment system: the classic leg-day pairing every gym needs.

SELECTORISED · QUADRICEPS

Leg Extension

BODY-SOLID · PRO CLUBLINE SERIES II · S2LEX

Precision quad isolation.

Isolates the quadriceps through a smooth, full range of motion. Essential for leg-day finishers, and equally at home in beginner programmes and athlete training.

TRAINS Quadriceps

- 7-position back pad · 13 start positions
- 93° seat-to-back angle eases hamstring tension
- Stabiliser handles · fully shrouded stack

SELECTORISED · HAMSTRINGS

Seated Leg Curl

BODY-SOLID · PRO CLUBLINE SERIES II · S2SLC

Hamstrings, trained the right way.

A padded thigh hold-down locks the hips in place for strict hamstring isolation. Pair it with the leg extension for balanced, complete lower-body training.

TRAINS Hamstrings · calves (assisting)

- 7-position back pad · 13 start positions
- 93° seat-to-back angle · thigh hold-down
- Step-in entry · fully shrouded stack

06

PACKAGE OVERVIEW

One package. A complete training floor.

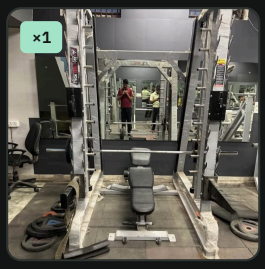

Fifteen pieces cover every part of a member's workout: warm-up and conditioning, heavy compound strength, cable versatility and machine isolation.
